

TYPES OF GUIDEWAY SERVICE

Guideway: Tram/Bus

Tram or Bus operating in dedicated lane (separate from regular traffic), allowing passengers to bypass traffic congestion.

Guideway: Street Trolley

Traditional Streetcar on dedicated rail operating either in traffic or separate from traffic.

Guideway: Light Rail

Modern rail service operating in dedicated rail right-of-way (separate from regular traffic). Usually serves larger urban areas and is relatively more costly, however services a large number of riders.
